

**The Rye City School District
Rye, New York**

0150

HIV/AIDS

The Rye City School District recognizes the public concern over the health issues surrounding Human Immunodeficiency Virus (HIV) and Acquired Immune Deficiency Syndrome (AIDS). The District recognizes, based upon the current state of medical knowledge, that the virus associated with AIDS is not easily transmitted and there is no evidence that AIDS or the HIV virus can be transmitted by casual social contact in the open school setting.

The District further recognizes the privacy rights of students diagnosed with HIV infection or AIDS and their right to a free appropriate public education; the rights of HIV infected employees to privacy and reasonable accommodations; the rights of all non-infected individuals to a safe environment free of any significant risks to their health; and the rights of all students to instruction regarding the nature, transmission, prevention, and treatment of HIV infection, pursuant to the Commissioner's Regulation, Part 135.3.

No individual shall be denied access to any program or activity sponsored by or conducted on the grounds of the District, solely on the basis of his/her status as an HIV-infected individual.

Students

It is the policy of the Board that:

1. A student's education shall not be interrupted or curtailed solely on the basis of his/her HIV status. HIV-infected students shall be afforded the same rights, privileges, and services available to every other student.
2. No student shall be referred to the Committee on Special Education (CSE) solely on the basis of his/her HIV status. A student who is infected with HIV shall be referred to the CSE only when the student's disability interferes with his/her ability to benefit from instruction. Such referral shall be made in accordance with Part 200 of Commissioner's Regulations.
3. If a student who is HIV-infected requires special accommodations to enable him/her to continue to attend school, the student shall be referred to the appropriate multi-disciplinary team as required by ' 504 of the Rehabilitation Act.
4. No disclosure of AIDS and other HIV-related information involving a student *shall be made without the proper authorization for release of confidential HIV-related information* subject to the instructions imposed by [Family Educational Rights and Privacy Act \(FERPA\)](#) and in accordance with The Health Insurance Portability and Accountability Act of 1996 (HIPAA) regulations.

Employees

It is the policy of the Board that:

1. No employees shall be prevented from continuing in his/her employment solely on the basis of his/her HIV status; such employees are entitled to all rights, privileges, and services accorded to other employees and shall be entitled to reasonable accommodations to the extent that such accommodations enable such individuals to perform essential functions of the employment position which the employee holds.
2. No disciplinary action or other adverse action shall be taken against any employee solely on the basis of his/her status as an HIV infected person with AIDS. All employees shall have access to the District's exposure control plan as required by the federal Office of Safety and Health Association (OSHA).
3. In accordance with OSHA regulations, training in universal precautions and infection control shall be offered to all employees and shall be provided to every employee with potential occupational exposure.

Confidentiality

Any information obtained regarding the HIV status of an individual connected to the school shall not be released to third parties, except as required by law, regulation, or court order or as otherwise necessary to fulfill a duty and/or obligation imposed by law; or are named on an Authorization for Release of Confidential HIV-Related Information form; named in a special HIV court order; or as indicated in Public Health Law ' 2782, when necessary to provide health care to the individual (i.e., to the school physician and the school nurse).

Any employee who breaches the confidentiality of an HIV-infected person, with regard to private and protected health information, shall be subject to disciplinary action in accordance with applicable law and/or collective bargaining agreement.

To protect the confidentiality of private health information of an HIV -infected individual, any documents identifying the HIV status of such individuals shall be maintained by the school nurse (or another authorized individual) in a secure file, separate from the individual's regular file.

Access to such file is only to the extent authorized by a signed consent form, or as otherwise permitted by regulation, or an applicable collective bargaining agreement.

HIV/AIDS Testing

No school official shall require a student or employee to undergo an HIV antibody test or other HIV-related test. In accordance with OSHA regulations in the event of an incident involving the exposure of one individual to potentially infectious body fluids of another individual, particularly blood or any other fluid which contains visible blood, an HIV test may be requested but NOT required. The request and refusal must be documented.

However, school officials shall not be precluded from requiring a student or employee to undergo a physical examination pursuant to Public Health Law ' 27-F when another illness is suspected (e.g., tuberculosis), as long as no HIV antibody test or other

HIV-related test is administered without the individual's informed consent as required by Public Health Law ' 27-F.
